
WOODWORK SKILLS

Following on from the success of our Heritage Boatbuilding workshops, our woodwork skills sessions will be restarting this summer. Wooden oars are desperately needed for our skiffs to allow us to continue with our plans to develop a Skylark Community Rowing School. The heritage craft of wooden oar-making is considered endangered, meaning that it is a skill at risk of being lost.

We'll be working alongside our partners at Alternatives to offer woodcraft taster sessions to people in recovery, who will then have the opportunity to progress onto oar-making later in the year.

WATER WE UPTY?

The Skylark IX crew will be making waves again this autumn as we set plans to return to the water. We are currently working with our friends at Loch Lomond Leisure to run rowing and canoeing taster sessions at Balloch for young people and adults. These sessions were a great success last year, with lots of people given the opportunity to learn new skills on the water thanks to funding from CORRA and West Dumbartonshire Council. Keep an eye on our social media and website for further information!
